REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Auburn:

During the present year three teachers, new to Auburn, have been employed; they have well adapted themselves to the needs of the pupils and have been very helpful in continuing the work of changing the course of study and text books to a more modern basis.

The two other teachers who have been in Auburn for some time are fully deserving of an increase of salary this coming year even though they have reached a maximum that was established several years ago.

It is not true economy in the long run to let superior teachers leave when a moderate increase in compensation will retain them.

It is to be hoped that the five teachers now in service may be retained.

It has not been quite possible to keep the expenditures within the budget estimated. This is not the fault of any school official but is due entirely to an unforeseeable increase in high school attendance.

It is a desirable condition when the public schools of any town are so conducted that pupils and parents become convinced that a high school education is indispensable in present day conditions.

G. H. WHITCHER,
Superintendent of Schools.
